

Philosophy-Goals-Objectives and Comprehensive Plans

Goals for the School District

The county board believes in the reforms, incentives and strategies developed in the Hughes-Hart Educational Reform Act of 1983. The county office shall provide for our students educational, personal and career needs by striving to:

1. provide a variety of classroom settings and instructional styles which accomodate the different ways research has shown children learn;
2. maintain orderly and efficient school campuses which encourage positive attitudes among students and high morale and quality teaching from teachers;
3. provide for the specialized needs of identified groups of students by the effective use of categorical aid funding;
4. provide appropriate and meaningful instruction to meet the variety of future goals of students;
5. assure that students achieve academic proficiency in essential areas of skill and knowledge;
6. identify and respond to individual educational needs of students, each of whom is a unique human being who can ultimately become a responsible and contributing member of society;
7. develop each pupil's respect of self and others, personal and school responsibility and critical thinking; and,
8. involve parents and community members in a broad range of activities at each school, recognizing the vital role parental attitudes and values have in their children's education.
