Adoption of Budget

Following the public hearing at the June county board meeting, the county board will adopt the final budget. This budget will be adopted only after technical corrections, changes deemed desirable or necessary in order to determine the tax requirement, and other recommendations to ensure that proposed expenditures do not exceed anticipated, realistic revenues that have been made.

The superintendent shall also approve the budget as officially adopted and file one copy with the board of supervisors, the county auditor, and the Superintendent of Public Instruction on or before July 1.
