

STUDENTS

Immunizations

To protect the health of all students and staff and to curtail the spread of infectious diseases, the Inyo County Board of Education desires to cooperate with state and local health agencies to encourage immunization of all district students against preventable diseases.

(cf. 5141.22 - Infectious Diseases)

Students entering a county office school or child care and development program, or transferring between school campuses, shall present an immunization record which shows at least the month and year of each immunization in accordance with law. Students shall be excluded from school or exempted from immunization requirements only as allowed by law.

(cf. 5112.1 - Exemptions from Attendance) (cf. 5112.2 - Exclusions from Attendance)

Each transfer student shall be requested to present his/her immunization record upon registration at a county office school.

However, when necessary, a transfer student may be conditionally admitted for up to 30 school days while his/her immunization records are being transferred from the previous school. If these records do not arrive within 30 school days, the student shall present written documentation by an authorized health care provider, showing that the required immunizations were received. If such documentation is not presented, the student shall be excluded from school until immunization requirements are met.

The Superintendent or designee may arrange for an authorized health care provider to administer immunizations at school to any student whose parent/guardian has consented in writing. At the beginning of the school year, parents/guardians shall be notified of their right to provide consent for the administration of an immunization to their child at school. (Education Code 49403) (cf. 5141.3 - Health Examinations) (cf. 5145.6 - Parental Notifications)

STUDENTS

Immunizations

The Superintendent or designee shall not unconditionally admit any student to a county office school or child care and development program unless that student has presented documentation of full immunization, in accordance with the age/grade and dose required by the California Department of Public Health (CDPH), against the following diseases: (Health and Safety Code 120335; 17 CCR 6020)

1. Measles, mumps and rubella (MMR)
2. Diphtheria, tetanus and pertussis (whooping cough) (DTP, DTaP, or Tdap)
3. Poliomyelitis (polio)
4. Hepatitis B
5. Varicella (chickenpox)
6. Haemophilus influenza type b (Hib meningitis)
7. Any other disease designated by the CDPH
(cf. 5141.22 - Infectious Diseases)

The student's immunization record shall be provided by the student's health care provider or from the student's previous school immunization record. The record must show the date that each dose was administered.

Exemptions

Exemption from immunization requirements shall be granted under either of the following circumstances: (Health and Safety Code 120365, 120370, 120375; 17 CCR 6051)

1. The student's parent/guardian provides a written statement by a licensed physician that, due to the physical condition or medical circumstances of the student, one or more immunizations are considered unsafe or are permanently not indicated. The physician's statement shall indicate the specific nature and probable duration of the medical condition or circumstances that contraindicate immunization. In such circumstances, the student shall be exempted from one or more vaccines to the extent indicated by the physician's statement.
2. The student's parent/guardian provides a letter or affidavit documenting which immunizations required by Health and Safety Code 120355 have been given and which immunizations have not been given on the basis that they are contrary to the parent/guardian's beliefs.

When immunization(s) are contrary to the parent/guardian's personal beliefs but there is good cause to believe that the student has been exposed to one of the communicable diseases listed in Health and Safety Code 120325, the student may be temporarily excluded from school until the local public health officer is satisfied that the student is no longer at risk of developing the disease.

On or after January 1, 2014, the parent/guardian shall also submit a form prescribed by the CDPH which includes a signed attestation by a health care practitioner that indicates he/she has provided

STUDENTS

Immunizations

the parent/guardian with information regarding the benefits and risks of the immunization and the health risks of the communicable diseases listed in Health and Safety Code 120335 to the person and the community. The parent/guardian shall sign a statement indicating that he/she has received this information. Neither the health care practitioner nor the parent/guardian shall sign these statements more than six months prior to the date that the student is subject to the immunization requirement. In lieu of the original form, the county office shall accept a photocopy of the signed form or a letter by a health care practitioner that includes all information and attestations included on the form.

Exclusions Due to Lack of Immunizations

Any student without the required evidence of immunization may be excluded from school until the immunization is obtained or an exemption is granted in accordance with the section "Exemptions" above. (cf. 5112.2 - Exclusions from Attendance)

Before an already admitted student is excluded from school attendance because of lack of immunization, the Superintendent or designee shall notify the parent/guardian that he/she has 10 school days in which to supply evidence of proper immunization or an appropriate exemption. (Education Code 48216; 17 CCR 6040)

This notice shall refer the parent/guardian to the student ~~child's~~ usual source of medical care or, if the student has no usual source of medical care, then to the county health department. (Education Code 48216)

The Superintendent or designee shall exclude from further attendance any already admitted student who fails to obtain the required immunization within 10 school days following receipt of the parent/guardian's receipt of the notice specified above, unless the student is exempt from immunization for medical reasons or personal beliefs. The student shall remain excluded from school until he/she provides written evidence that he/she has received a dose of each required vaccine due at that time. The student shall also be reported to the attendance supervisor or principal. (17 CCR 6055)

Conditional Enrollment

The Superintendent or designee may conditionally admit a student with documentation from an authorized health care provider that: (Health and Safety Code 120340; 17 CCR 6000, 6035)

1. The student has received some but not all required immunizations and is not due for any vaccine dose at the time of admission
2. The student has a temporary exemption from immunization for medical reasons

The Superintendent or designee shall notify the student's parents/guardians of the date by which the student must complete all the remaining doses when they become due as specified in 17 CCR 6035.

STUDENTS

Immunizations

The Superintendent or designee shall review the immunization record of each student admitted conditionally every 30 days until that student has received all the required immunizations. If the student does not receive the required immunizations within the specified time limits, he/she shall be excluded from further attendance until the immunizations are received. (Health and Safety Code 120375; 17 CCR 6070)

Records

The Superintendent or designee shall record each new entrant's immunizations in the California School Immunization Record and retain it as part of the student's mandatory permanent student record. County office staff shall maintain the confidentiality of immunization records and may disclose such information to state and local health departments only in accordance with law. (Health and Safety Code 120375, 120440; 17 CCR 6070) (cf. 5125 - Student Records)
